Menck's Store Robbed Again; **\$560 Is Lost**

For the fourth time in recent years, and the second time since March, Menck's Store in Natalia was burglarized April 29, this time by what appeared to be professional safe robbers.

The Natalia store suffered the loss of \$560, \$261.68 of which was cash, when the knob of its safe was knocked off and the contents taken. Aside from the cash, a number of checks were lost.

Only clue, according to Chief Deputy Charles Hitzfelder, was a good fingerprint which has been sent to the Department of Public Safety in Austin, but no report has been returned as yet. Hitzfelder said that the technique used indicated that the intruders were professionals.

The deputy also said that three fingerprints had been obtained at the Natalia school, which was recently burglarized. Reports indicate that this was also a professional job, as nine schools have been robbed recently in the state by the same method. The fingerprints obtained in Natalia are the first that law enforcement officers have been able to get, Hitzfelder said.

LaCoste Grad **Gets Fellowship**

Donald J. Mangold of LaCoste, has been notified that he has been awarded a teaching fellowship in the chemistry department of the University of Notre Dame beginning in September.

Mangold, a 20-year old senior majoring in chemistry at St. Edward's University in Austin will receive his bachelor of science degree this summer. He plans to receive his master of science degree in organic chemistry with a minor in mathematics.

An honor student, Mangold is also a member of the St. Edward's University Academy of Science and the St. Edward's Glee Club.

A 1947 graduate of LaCoste High School, he is the son of Mr. and Mrs. R. J. Mangold of La-

St. Paul's To **Conduct School**

MRS. ELLA OSTEN

Mrs. Ella Osten of Columbus. Ohio, and Rev. W. A. Flachmeier of Austin will be instructors in a Sunday School Teachers' Institute to be conducted in St. Paul's Lutheran Church of Hondo, according to announcement made here by Rev. M. J. Lorfing. Teachers from Castroville, Quihi, Knippa, and Hondo have been invited.

The Institute will consist of three sessions. The aims will be to assist teachers in making the most profitable use of the teaching materials provided for them by the church. Sessions are to begin at 3 P. M., Sunday, May 7 and May 8 at 8 P. M.

Mrs. Osten comes to this work after a rich experience in the work of Christian education. She taught in the Christian Day School of Muscatine, Iowa, and was principal in a Christian Day School in Toledo, Ohio. As staff assistant in the headquarters of the American Lutheran Church, she is charged with the responsibility of developing a weekday program of Christian education for the children's division of the Sunday School.

Rev. Flachmeier is serving as director of parish education in the Texas District of the American Lutheran Church.

Days To Increase Strength Merchants Help With Recruiting

Hondo will lose its National Guard company unless 21 men are enlisted during the next four weeks to bring the unit up

This warning was given to the company this week by Col. Edward D. McCall, regimental commander, who said that the company would be transferred to another town unless it can muster a f u l l strength of 50 men.

Col. McCall met with a group of Hondo business men Wednesday afternoon and said that he would allow Hondo until June 1 to fill its quota. The men pledged help in recruiting enlistees, and it is believed that the Lions Club will take over the project of contacting eligible young men.

The colonel said the age limits for the Guard were 17 to 45, although men with previous service could go up to 60 if they passed a physical. Boys 17 must have their parents consent.

Loss of the Guard would mean that Hondo would also lose the \$18,000 a month potential payroll paid to members of the unit.

Acting Commander Lt. O. L. Moss has issued an appeal for enlistments from young men eligible for the Guard in order that the company be kept here. He said that enlistees could come from Hondo or from any surrounding communities.

The National Guard w a s organized here in March, 1948 with 19 enlisted men and 2 officers on its roster. Started as an anti-tank company of the 141st Infantry, 36th Division, it was changed to a 4.2 mortar company following the interest shown by the men in that field during the summer camp at Camp Hood in

Since its organization, the Hondo company has consistently received a rating of excellent from inspecting officers. The only fault found with the unit was the lack of full strength.

Lt. Moss stated that veterans could join the Guard with the same rank they held at the time of their discharge. At present there is an opening for a warrant officer, junior grade, for administrative duties, with an officer's rating expected to open up

Members are paid at the rate of one day's pay for two hours of drill each week. In addition to this, Guardsmen are paid according to grade for the two-week summer training they receive. Service training toward longevity, and a point system provides for a retirement plan under which men receive a maximum of 50 percent of their pay.

The National Guard has been meeting at their recently-enlarged armory at the airfield, but a new armory costing \$150,000 may be built with federal funds when the unit reaches full strength. Land for the building has already been donated by the city. The armory would include a hardwood dance floor, auditorium, mezzanine, offices, and indoor rifle range. It

Medina County P.-T.A. Council **Holds Meeting**

CASTROVILLE - The Medina County Council and visitors from towns in the district met Wednesday, April 26, in the LaCoste High School Auditorium. Miss Lula Lee McMeans, first vicepresident of the LaCoste P.-T.A. presided, as the president of the Council, Mrs. Matt Bader, is also president of the LaCoste P.-T.A. The program opened with a piano solo and Mrs. Bess Ward Vann, principal of the Eloise Japhet school showed a film of the work done with children in her school, and explained the work in detail.

Mrs. Eloise Japhet was the next speaker. She urged everyone to continue to buy Easter seals, as this fund helps to buy equipment for the Eloise Japhet school, "where you are helping the other person to be someone."

A Bookmobile panel discussion was given by Mrs. McNeal Jr., her daughter, Marlyn, of the La-Coste 6th grade; Grace Gomez of the Idlewild district, a LaCoste Junior; and Josephine Rihn and Shirley Griffin, seniors of La-Coste. The group gave examples of the benefits they had received from the Bexar County Bookmobile, and also expressed the hope that Medina County would get one.

Hugh Meyer, Hondo attorney, next discussed the Gilmer-Aiken bill. He brought out that local school districts will have every inducement to enforce school attendance, as according to the new school laws, it is not the school census, but the attendance that will determine the finances of the

He discussed consolidations and annexations, saying that the cycle will work out so that there will be fewer schools with more students.

Mrs. Sadie Ray Powell, president of the Alamo district of the State Teachers Association, and a teacher at the Japhet school was the closing speaker. She discussed phases of the work, and gave a cordial invitation to everyone to visit the school and see the wonderful rehabilitation that is being done there for children of

The Hondo Future Farmers are hoping to keep their luck going with their line of "firsts."

For the first time in the history the chapter has a 50 acre cooperative farm project; had a Greenhand chapter conducting team in the area leadership contest; won a first place banner in the area dairy judging contest; had four seniors applying for the state farmer degree.

The Ag III boys making application for the degree are Wilbur Bohmfalk, president; Albert Saathoff, vice-president; Hugh Saathoff, parliamentarian; and James Cagle. Awards will be made at the state convention in San Antonio in July. Successful applicants must show their abilities of leadership, citizenship and earn \$250 on the project program over a period of four years in high

The chapter will have two teams enterting the state judging contest at A&M College on May 6 for the first time since the war. In 1948, Albert Saathoff, Tony Brucks and Darrell Muennink judged in the state poultry contest and can not judge this year. William Grell, Paul Pope and Lloyd Muennink will judge poultry Saturday, and the area-winning dairy judging team of Clenus Saathoff, Wilbur Bohmfalk and James Cagle will judge dairy.

all ages. Mrs. Powell also discussed the resolutions recently passed by the Alamo District: first. that the district meeting be held in the fall, and the state in the spring, giving teachers the opportunity to be at home for Thanksgiving. The second resolution is in regards to the amount of money allocated to each district, since the dues are \$5.00.

Mrs. Matt Bader held a short business meeting of the Council, and announced that called meeting of the Executive Board would be held soon.

Coffee, sandwiches and cake were served to the guests at the close of the meeting.

Scouting Program Told Lions Club Bu Ed "Red" Leavitt

The importance of Scouting as a program to be used by the home, school and church was told to members of the Hondo Lions Club Wednesday by Ed "Red" Leavitt, official of the Alamo Council, Boy Scouts of America, from San Antonio.

Leavitt said that Scouting appealed to boys and it offered a construction program for them. He urged that men of the highest calibre be used in places of leadership as Scout leaders are a great influence on the boys. Money and manpower are the two most important things needed to keep Scouting alive, he said.

The Scout leader pointed out that the boys of today would be in position to run things in years to come, and said that the future depended upon them.

He listed the three influences upon youth of today as the home, at which family ties are not as strong as they used to be; the school, which is offering a better approach to training; and the church, which he called a bright spot and "a great hope." All three can use Scouting, which is a program, not an organization, and to which 11/2 million boys are bound together.

New Castroville Board To Meet

CASTROVILLE - Plans for the coming year are expected to be made when the new Castroville Rural High School Board of Trustees meets at the public school Monday night at 8.

Members of the board met last Tuesday night in the Rio Medina school, but as the meeting was not of an official nature, no business was transacted, according to one of the members. Felix Stinson and an attorney from San Antonio were included among visitors present.

Another meeting was held Tuesday afternoon at the Castroville school. Present were Charles Huie Jr., architect. and M. H. Ryland. contractor, of the new school, and George Boehme, A. C. Schuchart, William Jungman, Cornolius Schott, Emil Lindeburg, and Harley Haegelin, members of the board. Tommy Frey, another member, was not present.

At the afternoon session, Ryland was asked by a reporter if he would like to explain the delay on the school building and refused to comment.

Members of the board met with trustees from LaCoste and Lytle this week, but no definite plans were made.

Frames for the entrance door of the proposed high school were received in Castroville Tuesday

Do You Want To Cut Your Federal Taxes?

Overlapping Bureaus

The Executive Department of the Federal Government has grown from small beginnings into a mighty colossus composed of 1,812 separate bureaus and agencies employing 2,090,554 civilian workers with an annual payroll of more than \$6,000,000,000.00.

This growth was haphazard. What happened was that when a job needed to be done, an agency was hurriedly set up by executive order, or created by Congress. We are now paying for all these mistakes.

On July 7, 1947, Congress authorized, by unanimous vote, the launching of the greatest effort yet made to plan an efficient, economical government reorganization. With the approval of President Truman. a bi-partisan, twelveman commission, headed by former President Hoover, was established. This Commission fourtd many discouraging examples of the confusion in our government machinery, and has made concrete suggestions to correct these ills.

As matters stand, when you attempt to deal with your government, you will find 34 agencies engaged in obtaining land, 10 in Federal construction work, 9 in credit and finance and 50 in gathering statistics. A rancher desiring to pasture his livestock on public lands must obtain separate permits, each containing different terms and conditions, from both the Department of Interior and the Department of Agriculture.

The Army Engineers and the Reclamation Bureau cost the taxpayers untold millions of dollars through duplication of effort on water resources development. As an instance of this wasteful duplication, the Hungry Horse Project in Montana was estimated to cost \$6,300,000. The actual cost was \$93,500,000.

National Guard (Continued From Page One)

would be made available for use by the public.

Moss declared that the Guard was important not only because of its value in a national emergency, but also for service in local emergencies. He pointed out that the Guard was mobilized within two hours recently to help search for a hunter missing near D'Hanis. It could also be called out in the event of tornadoes, floods or to aid law enforcement officers if needed, he said.

The commanding officer asked that men interested in joining the Guard contact him immediately and attend drill Tuesday night at 7:30 at the armory.

The unit recruited one man, George Dawson Jr., Tuesday night, but lost another by discharge. Lt. Moss has been transferred to Del Rio with the Soil Conservation Service and was separated from the company. Commanding Officer Capt. Richard Schneider is expected to return from a school at Fort Benning, Ga., on May 13.

Truman Hits Back

DRESIDENT TRUMAN really poured it on mud-slinging Sen. Joe McCarthy in a long-distance phone conference from his vacation headquarters at Key West with congressional leaders in Washington.

"What's wrong with that fellow, anyway?" exploded Truman. "Doesn't he know that he is doing irreparable harm to his government by all this loose talk?"

The President commented that McCarthy's unsupported charges that the state department is "loaded with pro-Communists" already had seriously undermined the morale, and perhaps the efficiency, of this vital branch of the government.

"Think of the great numbers of loyal personnel in the department who have given their whole lives to their government," he said, "and think what McCarthy has done to the spirit of these people. It wouldn't surprise me if many of them were thinking of resigning. They probably figure that they'll be next on Mc-Carthy's list and they don't want to have their families dragged through such an or-

The effects of McCarthy's character assassination and reckless rantings were even more damaging on U.S. prestige abroad, Truman emphasized, particularly in western Europe, where we must keep our heads high in the cold war with Russia.

McCarthy has played right into the hands of Russian propagandists who are doing everything to sell their satellites and other western European countries the idea that the United States is divided against itself, the president declared.

He added that McCarthy had made the job of our foreign diplomats "doubly difficult," because they are afraid to be seen talking to anyone who might be accused of pro-Communist leanings in France, Italy and other countries,

even in the course of their duties. As a result, the President said, our embassies and legations in some countries had become "virtually isolated" and our foreignservice personnel in these places seriously demoralized.

Inside Facts

Things most people don't know about alleged "Commies" in government: Chairman of the state department's loyal'y review board charged with weeding out Communists is a Republican-Gen. Conrad Snow of New Hampshire. He appointed on the recommendation of GOP Sen. Styles Bridges, a backstage brain-truster for Senator McCarthy's attacks . . . Chairman of the top loyalty review board is also a republican, Seth Richardson, who served under Hoover. Most of the lawyers under him are also Republican.

Neither Truman nor anyone else can overrule them . . . only the courts . . . Actually, Acheson has fired more state department employees than any other secretary of state . . . McCarthy's attacks have been almost as vitriolic as Moscow's. Here is its latest diatribe against Acheson, "This Fascist-like diplomat . . . a truly incorrigible liar . . swindler . . . a hired lackey of the instigators of war who spent his scanty brains to belie truth, freedom and peace . . . Ache-son's true mastert are the banks and concerns who dream of looting the globe." . . . Acheson's family is worried over his terrific strain.

He is wondering whether ne has not become a liability, that for the good of U.S. foreign policy he should resign . . . Writes another secretary of state, Henry L. Stimson, in the Hoover cabinet, about Senator McCarthy: "The man who seeks to gain political advantage from personal attack on a secretary of state is a man who seeks political advantage from damage to his country.

"Flying Saucers"

Harassed over flying saucers, the air force now refers queries to the first chapter of the phophet Ezekiel who saw a living wheel in the heavens. Airmen are not arguing with Ezekiel and cast no doubt upon what he saw. But they do cast doubt on modern prophets. They say they have tracked down every flying-saucer report, and there ain't no such animal.

The Brotherhood of Railroad Trainmen, slightly gleeful at presidential seasickness, remind him: "Mr. President, modern streamliners, manned by competent union crews, run daily between Washington and Florida. And no little brown pills are required."

Two great Bible fans are fight-

ing for the Republican senatorial nomination in New Hampshire. Sen. Charles Tobey and challenger Wes Powell are doing their best to outquote each other . . . Bradley Nash has written a book on Herbert Hoover's reforms.

Jaycees Win First Game As Girls Beat Devine

The Hondo Girls had little trouble beating Devine, and the Jaycees defeated the American Legion 5-2 for their first win of the year in softball games Wednesday night.

Hondo topped Devine 11-0 in four innings as Mona Eckhart pitched no hit, no run ball. They scored two runs in the first on two hits and two errors, and pushed another five across in the second as the Devine defense bobbled four balls. The fourth inning saw four more runs cross the plate on hits by Huesser and Wernette and a double by Williams coupled with two Devine miscues.

The Jaycees put together a hit by Jim Golden and error to tally twice against the Legion in the opening frame, and three hits and three walks in the second allowed them three runs and their margin of victory.

Bill Hemby allowed a double by Bohmfalk for four innings before weakening in the fifth when singles by Owen, Rohrbach and Taylor accounted for one run. They added another in the seventh as Owen scored on an error.

Results of last Friday night's games may be found in section

DEVINE -The directors of the Devine Athletic and Recreational Association have competed plans for the opening of the ball park for the 1950 season. The lights will be turned on Friday night, May 5, when the Devine girls and Hondo girls play in a nonleague game. Lights will remain on to permit practice among potential members, and membership cards will be available at the concession stand.

Besides the regular city league games and the home games that both the boys' road team and girls' road team will play, two tournaments are on the calendar with a possibility of others being

Tournament In D'Hanis May 13

D'HANIS-Perry Winkle brings his "Nine Old Men" high school baseball tournament here on Saturday, May 13, for one and possibly two games.

Definitely scheduled to play are the host D'Hanis Cowboys and the Three Rivers nine, who cross bats at 3:45 P. M.

LaCoste's Eagles, who were booked to play the Mathis Pirates here at the same time, drew a forfeit when the latter announced it could not make the trip.

Should the Natalia - Pettus series, which opens with a doubleheader Monday night in Pettus, go three games, then the third and deciding tilt will be played here as part of a doubleheader.

The games here will mark the final daylight contests of the tournament. In the future all games will be staged under the

Bears 7, Seguin 2

By Henry Dominguez

The Hondo Bears defeated the Seguin Royal Sports 7 to 2 at the local diamond. Fancy fielding and timely, hitting helped the Bears to victory. Ben Perez and Efrain Barrios turned in several spectacular catches to keep Juan Sandoval out of trouble in the third and sixth innings. Juan Sandoval struck out 8 batters and had a no hit no run game going into the sixth when he got into trouble. He was later relieved by Pile Rodriguez in the eighth when the Sports scored their only two runs. Sandoval contributed to his

The Hondo Lions moved back into the Highway 90 lead Sunday with a 5-0 win over the Macdona Cubs. Veteran Bill Wood pitched six-hit ball in gaining the shutout while his mates could manage only seven hits off Munk.

The Lions chalked up a 2-0 lead in the first when H. Finger reached base on an error, Parsons doubled, and Manager Cliff Sadler singled to score both runners. Runless ball was played until the seventh when an error put Mangold on, Roy Meyer singled and H. Finger cleared the left field fence with a drive to put the game on ice.

Macdona's hits were scattered as they left 11 runners on base. They had the sacks filled in the sixth when a double play, Sadler to Zerr, put out the fire, and had runners on second and third in the seventh with none away but failed to score. Four of their hits came with two away.

Will Hondo Lose Guard?

Will Hondo lose its National Guard unit? It will if the com pany cannot secure enough enlistments before the June 1 deadline to bring the unit up to full strength, according to word received this week from National Guard regimental headquarters.

The National Guard may take men from 17 to 45, and veterans up to 60 if they meet physical qualifications. The company drills each Tuesday night at the armory on the airfield.

Pictured above are two Guardsmen, Tommy Timmerman, and Capt. Richard Schneider as they demonstrated use of the 42 mortar to a group of school children during an exhibit last year.

EAGLE PASS STAYS IN LEAD WITH PEARSALL WIN

The Eagle Pass Eagles moved closer to a District 32-A baseball championship Tuesday afternoon with a 4-3 victory over the Pearsall Mavericks. Juan Coronado. May hurler, walked in the two deciding runs.

A victory by Pearsall would have thrown the race into a threeway tie between the two teams and Hondo. Eagle Pass now has only Del Rio in the way of the district banner.

Hondo will play Crystal City Thursday afternoon away from home in what will probably be their last game of the season.

Cease and desist orders have been issued against some of the advertising that has been published by the manufacturers of Camels and Old Golds cigarettes. The Federal Trade Commission, which has been investigating cigarette advertising claims, has found that cigarettes do not aid digestion, stating in their report: "The only physiological effect cigarette smoking can have upon digestion, if it has any at all, is harmful."

"Less nicotine" claims were covered by the FTC with the statement "All cigarettes contain varying amounts of nicotine and throat irritants, and there is no reliable basis of fact for advertising claims that one brand is superior to another in these respects."

The cigarette industry is unhappy because, as they say, the advertising to which the FTC objects has been dropped long ago. They say that the FTC takes so long to act that it is failing to protect the public, while being unfair to the manufacturers.

The point of the matter is this - in spite of the fact that mom, pop, and grandma are seen everywhere with their cigarettes, and less and less emphasis appears to be laid upon the "no smoking" rules in trains and many other public places - it still isn't good for you.

If you want to smoke, you are free to do so in the United States. You may not hear so much about "less nicotine" and "improved digestion" from now on, however.

THE SECO PHILOSOPHER

J. A. FIGURES OUT SOLUTION TO FARM SURPLUS - LAY OFF A YEAR

Editor's Note: The Seco Philos opher on his Johnson grass farm has just about reached the apex of lazy proposals in his letter this week as you'll see by reading the following.

Dear editar:

Seems like every time two Congressmen, two farmers or two businessmen get together they talk about the farm surplus, and any time an editor runs dry of ideas he writes about it too.

As I understand the problem we farmers are so good at farmin we've outdone the automobile manufacturers, refrigerator makers, atom bomb makers and the other experts and piled up a surplus nobody knows what to do

Like it stands, if the govern.

ment stops payin us for producin a surplus, we'll go bankrupt, and if it doesn't, it'll go bankrupt, and there ain't much to choose from between a busted government and

a busted set of farmers, although I've heard of countries getting along with both for years.

However, as I understand the argument, if us farmers would produce less, the price of corn or cotton or wheat or rice would stay high because of the law of supply and demand - there ain't no chance of the consumin public getting no reduction whatever takes place. In other words, if we reduce the surplus, the country would be payin just as much for its food but nobody would mind and editors would be out of editorial matter because there wouldn't be no embarrassin sur-

In fact, I have heard of some experts in Washington privately hopin for a first class crop failure this year. They figure this would overcome the surplus and restore things to normal and get people's mind off on something else, maybe Russia or flying saucers.

Now I ain't settin myself up as a expert, but I've got a solution to the surplus problem even better than a crop failure.

Why not just let us farmers take a holiday this year? Just lay off the next twelve months and sit in the shade.

If the object is to cut down on the surplus, why wear out yourself and your machinery goin up one row and down another and runnin a chance of not havin a failure? Be worse off than we are

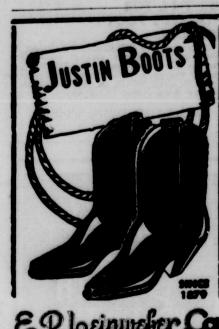

If the government is gonna

guarantee us a livin, regardless of the market price of cotton or corn or wheat or rice, why run up a year's wear and tear on us and our equipment? We're already a year ahead of the resi of the country, we ought to be allowed to sit by and wait till the rest of you all catch up with us. Yours faithfully,

J. A.

MUSIC TEACHER RECORDS SCHOOL CHILDREN'S VOICES

Voices of Hondo's school children were put on records for the first time in history by Miss Ann Thompson music teacher, in order that they might hear themselves as others hear them.

The singing voices of all her music pupils, as well as the speaking voices of 7th and 8th grade science students, were transcribed by means of a wire recorder.

The Senior Class of Honds High School entertained the Junior Class on Saturday, April 20, with a picnic at Garner State Park. A picnic lunch, consisting of barbecued chicken, potato salad, beans, cake, cookies, jarid soda water, was served to the members of both classes attending the pienic, their sponsors and chaperones. Swimming, mountain-climbing, card games, such as Canasta, and other amusements at the Park were enjoyed by all those present.

On Monday morning, the Senior Class voted to spend their senior day, May 5, and Saturday, May 6, in and around Austin. visiting the State Capitol and scenic spots in the countryside near Austin.

Leftover Ham and Eggs Make Interesting Dish For Supper, Luncheon

YOU'LL BE GLAD to have ham leftover from your Easter din-

You can serve juicy pink slices of ham in sandwiches or with salad as long as you can slice them, but when you get down to the smaller pieces, then you may be looking for such recipes as call for diced or ground ham.

Ham a la King in Toast Cups (Serves 6)

- 3 tablespoons butter
- 1 tablespoon diced onion ½ teaspoon salt
- 1/8 teaspoon pepper 4 tablespoons flour
- 21/2 cups milk 1 cup diced, cooked celery
- 2 cups julienned cooked ham
- 4 sliced hard-cooked eggs
- 1/2 teaspoon Worcestershire

sauce Melt butter, add onion and cook until tender over low heat, while stirring. Add seasonings and flour;

blend. Add milk and cook until thickened, stirring constantly. Add celery, ham, sliced eggs and Worcestershire sauce, reserving a few egg slices to garnish top. Heat and serve in hot toast cups. Toast Cups

6 thin slices bread 3 tablespoons melted butter

Remove crusts from bread slices. Brush both sides of each slice with melted butter. Press into six, threeinch muffin pans with two points each side. Bake in a moderately hot oven (375°) for 12 minutes until lightly browned.

Smoked Ham-Pineapple Patties (Serves 6)

- 3 cups ground leftover ham 1/2 cup dry bread crumbs
- 1/2 teaspoon ground cloves
- 1/2 teaspoon salt 1 tablespoon brown sugar

2 eggs

6 slices canned pineapple Combine meat, crumbs, seasonings, sugar, and well beaten eggs. Mix thoroughly. Form into six flat patties. Arrange pineapple slices in a shallow baking pan. Place a patty on each ring. Bake in a hot oven (325°) about 25 minutes or until browned.

Ribbon Egg Salad (Serves 6)

- 12 hard-cooked eggs
- French dressing 2 tablespoons unflavored gela-
- tin ½ cup cold water
- 1/2 cup boiling water 11/2 cups salad dressing
- 2 teaspoons minecel onica
- 3 tablespoons lemon frice 1/2 teaspoon sals
- 1/2 cup chopped parsley

Separate yolks and whites. Perce the yolks through a sieve and monst-

en with French dressing. Press the yolks firmly onto bottom of greased mold. Chop the whites. Soften gelatin in cold water and dissolve in boiling water. Cool. When sirupy in consistency, add salad dressing, onion, lemon juice and salt. Pour about half of this mixture over yolk and chill until firm. Add chopped parsley and egg whites to remaining gelatin mixture and pour into mold. Chill until firm.

Cream sauce, strips of ham and hard-cooked eggs served in toast cups make such a tasty and delicious dish when served in this way, you'd never guess leftovers were being used.

LYNN SAYS: Pep Up Lunches With Variety

Tuna fish salad for sandwiches is nothing new, but when you add to it some broiled bacon, you give it a welcome change of flavor.

Swiss cheese paired with thinly sliced dried beef and sliced tomato will travel well if made into a lunch

box sandwich. If the sandwich filling is rather dry, give it succulence by dipping an egg-milk mixture and fry

Add other ingredients to both ham and eggs to enhance their flavor and extend these protein foods when preparing them into luncheon or supper dishes.

HOW IS YOUR POSTURE?

Military Round Posture Shoulders

Good Posture has long been a thing to be admired—something to delight the eye. From ancient times to the present an erect bearing has been regarded among all races as a thing of beauty. Soldiers marching: a man sitting in the saddle; an athlete publicly displaying his physique; bathing beauties on parade—no would have grace and charm without good posture.

It has remained for chiropractic to discover that erect posture involves much more than something pleasing to look at. Now we know that it is a foundation of good health.

You Never Know: Most of the automobile dealers are kidding each other now about an incident which happened in Hondo recently. A man came to town driving a beat-up "klunker" about 20 years old, and talked to several dealers about making a trade. He didn't look very prosperous, and some of the dealers didn't even waste time making conversation with him. After he had tried unsuccessfully several times to buy a new pickup, he found a dealer who made him an offer for his old jalopy. The man said "Let me go talk to ma." He came back in the shop and counted out the cash - right on the barrelhead, in full, for his new truck.

About this time of year some merchants complain that "business stinks." Tuesday evening the comment almost turned into a fact, when a live, wild skunk walked through the downtown streets of Hondo, tried to get in Gaines Store, got the door slammed in its face, walked across the street and cleared everybody out of Holloway's Hardware Store.

Hondo

The skunk walked in the front door, and the Holloways went out the back - faster than the skunk. Everything was quiet and peaceful for a while, and finally the visitor walked out the front door, and went to Mask's Welding Shop.

At least a dozen witnesses verified the incident . . . Leslie Earl Holloway said that if the skunk had done his duty, he would have gone fishing for at least a week.

PERSONAL APPEARANCE

About the busiest bee in Hondo last week was MRS. B O B CORDER who was on the go continuously in fulfilling her duties as chairman of the staging committee of the annual Hondo Garden Club Flower Show. It fell her lot to see that everything was set up properly for the display, and her efforts were reflected in the excellent manner in which the show was staged.

Our candidate for "Mr. Loud Shirt of 1950," or any other year for that matter, would definitely be JOHN G. BRITSCH. Of late we have seen him in a brilliant fireman's red number and another time in a flashy gold job.

Her lovely delphinium, stocks, and snapdragons place MRS. L. A. STIEGLER way out of the amateur's class in gardening. She never fails to have something in bloom no matter what the season, and more than likely whatever is blooming is just a little bit bigger and a little bit more colorful that the next fellows. We'd like to borrow her recipe.

One of the hard to believe stories of the week concerns JOSEPH DARNELL and JAKE SCHUEHLE. Seems that Joe sold Jake some green-tinted glass about two and a half years ago when Jake was building his garage. Guess the glass business has been kind of slow with Joe, because he just opened up his warehouse again the other day, and found Jake's pocketbook. Jake had been looking for it - for two and a half years.

Thomas "Barns"

Oklahoma's surly Sen. "Cotton Elmer" Thomas was so burned up after this column corrected his version of General Bradley's secret testimony on the possibility of war that Thomas has now ordered a senate subcommittee to investigate.

The subcommittee is supposed to find out how this column got General Bradley's secret testimony. Senator Thomas had reported to the press that the chief of staff was not worried about wat with Russia, To keep the record straight, however, this column gave a word-by-word account of Bradley's remarks, which differed considerably from Senstor-Thomas's version.

Following this, "Cotton El-mer" named three senators to investigate this columnist—Jos O'Mahoney of Wyoming, Willis Robertson of Virginia and Homer Ferguson of Michigan, They are now checking on all the secret transcripts to find which one might have slipped into Drew Pearson's hands. What stumps the investigators, however, is that the column also quoted what General Bradley said off - the - record - which doesn't even appear in the stenographic transcripts.

So far the subcommittee suspects certain Republican senator of leaking the story to Pearson, but I can assure the subcommittee that its chief suspect wasn't even present during Bradley's testimony.

More to investigate

What Bradley said, summed up briefly, was that Russia won't have the industrial capacity nor the atomic stockpile to start a war for at least two years. However, he warned that Russia is a bully nation and might get careless whom she pushes around. He also refused to predict what Russia might do after two years.

General Bradley also made other significant observations the public is entitled to know but which this column didn't have space to print in the story now being investigated. So here is some more for the investigators to investigate:

Sen. Burnet Maybank of South Carolina questioned Bradley sharply on whether the 13 billion-deliar budget was an absolute minimum. "I certainly would hate to see the figure become

any smaller," replied Bradley. Then be declared flatly: "This amount was determined before we learned that Eucela had the

He assured, however, that he was willing to go along with a 13-billiondollar budget for the sake of ee omy.

"In fother words," suggested Massachusetts' Sen. Leverett Saltonstall, "as a good citizen you believe we should live within our means."

"Yes, but I would like to qualify that," Bradley hesitated

"You don't want to qualify the good citizen part," smiled Saltonstall

Then Bradley explained: "The eventual strength of our country de pends upon its industrial capacity. We must not destroy that by spec ing too much from year to year. So if I came here recommen 30 billion or 40 billion for defense, you should start searching for a w chairman of the joint chiefs of staff. . . .

"It is true that our force ground, air and navy-are not continued. "But I feel that we astrone attack from oripp this nation. I also believe that we will be able to win a war if it comes."

He predicted that this country's "mobilization base"-it's industrial potential, reserve forces and military education system-would "win a war if it is thrust upon us."

"This is a risk that we take," solemnly added the chief of staff.

Unification?

Outspoken Adm. Dan Gallery, whose ideas about an all-powerful navy have got him into the military doghouse, was brooding over a fire that damaged his home. "I don't blame it on the air

force," he confided to an air force friend. "I think Secretary of Defense Johnson started it."

Congress Sky-Pilot

New Chaplain Bernard Bras-kamp is probably the first chaplain in congressional history who doesn't use a prepared script in delivering the opening prayer before the house of representatives. When Rayburn recently complimented him on it the chaplain replied:

"Mr. Speaker, I can't pray sincerely by reading something I have prepared. That would be like telling the good Lord: "Look, Lord, this is my prayer for tomorrow, so be ready for it."

BENTSEN Reports From Washington

WASHINGTON - The Congress of the United States has inscribed ten new names on our nation's list of heroes to be forever honored.

Following the wanton slaughter of ten American airmon over the Baltic Sea, the Congress awarded appropriate awards and decorations posthumously to the officers and the crew of that illfated plans. The Senate instituted the action. The House quickly concurred.

And with concurrence Chairman Vison of the Armed Services Committee said: "The aircraft of a foreign nation, military aircraft of the Soviet Union, deliberately, savagely, brutally shot our navy aircraft out of the

The nation's leaders placed these men among the nation's heroes by directing the Secretary of the Navy to make the posthumous awards.

The lives of these men were taken in wanton disregard of human decency, of principles of international law, of the most elementary rules of peaceful conduct between nations.

Your representative believes the Congress of the United States was right in vigorously condemning Russia's action. We must show that our Congress is not treating this provocation lightly. It is to the credit of our people that we have not allowed this incident to provoke us into war. The thought is abhorrent to peaceloving Americans - but such acts as this can bring war. The Russian government must be made fully aware of the dangers of such acts. Let them well know that the attitude of the citizens of the United States and their elected representatives in Congress has changed since the day of the Panay incident in China when the Japanese, because of our failure to protest vigorously their bombings, assumed we were weak, unprepared, and so they began their march of conquest and their reign of terror.

All for fun - and charity. The game resulted in \$5,000 for charity. This year's goal is \$10,000.

VISAS

Our border country had more than casual interest in an agreement approved by the governments of the United States and Mexico recently.

One of the main issues was the visa fee for pleasure-bent visitors to both countries. The governments agreed on \$3 for that type visa. Other type visas are also included in the new agreement.

I was greatly interested in this proposal and conferred at length with officials of our state department with strong recommendations against raising the fee above that amount.

What's the secret of the "UNRUFFLED" RIDE?

Some car makers say springs make the ride – and so we give every Buick four of the soft, gentle coil springs practically all cars use on front wheels only.

Some say the drive is important how power is transmitted to the rear wheels.

We agree - and use a torque-tube drive, that takes up all the thrust, freeing rear springs of driving pulsation.

Some stress tires—so you'll find lowpressure casings on every Buick, mounted on our own kind of Safety-Ride rims. Some play up shock absorbers - we make ours fast, soft and sure in action, to wash out all "after-bounce."

Then there are frames - and car weight-and engine mountings, which

on Buick are a very special kind used nowhere else.

They're all important-yet the plain truth is no one of these things-or two or three-gives a ride you can truly call "unruffled."

We feel it takes all of them-springs, tires, shock absorbers, drive, engine mountings - carefully and precisely brought into balance with each other.

You can see why we think so in any Buick - Special, Super or Road-MASTER.

You can feel it on cobblestones and car tracks, washboardy gravel and weather-pocked macadam, country lane and city street. You even feel it on boulevards, which grow still smoother when you travel them in a Buick-especially when it has Dynaflow Drive.*

So we would like you to try a ride that is truly "unruffled." Free of harshness-undisturbed by jounce and jitter - level - steady-going - smooth.

Just ask any Buick dealer for a chance to try out any Buick. You'll find it "the ride of a lifetime"- and the buy of a lifetime too!

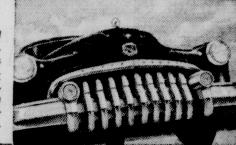

*Dynaflow Drive is standard on Roadmaster, optional at extra cost on Super and Special models.

Only Buick has Dynaflow and with it goes:

HIGHER-COMPRESSION Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.) NEW-PATTERN STYLING, with MULTI-GUARD forefront, taper-through fenders, "double bubble" taillights WIDE-ANGLE VISIBILITY, close-up road view both forward and back . TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius . EXTRA-WIDE SEATS cradled between the axles SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube WIDE ARRAY OF MODELS with Body by Fisher.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style note, (2) saves on repair costs - vertical bars are individually replaceable, (3) avoids "locking horns," (4) makes parking and garaging easier.
